THE BUDWORMS ARE BACK!

Join us, 6-7:45 pm

Poncha Springs Town Hall

333 Burnett Ave., Poncha Springs

Western Spruce Budworms feed on the new foliage of Douglas-fir and white fir

Dr. Dan West, Colorado State Forest Service entomologist, will discuss:

- how to identify Douglas-fir
- the spruce budworm life cycle
- budworm predators
- the fate of damaged trees
- preventative sprays, the pros and cons
- other control tactics
- Douglas-fir beetle and Douglas-fir engraver as they relate to western spruce budworm
- an overview of 2016 insect damage in forest

Please RSVP by April 24
