Does the student have an email address or a Facebook account?

Yes _____ No _____

What do you and the student hope that he/she will gain?

Help catching up in math? _____

Ability to advance above grade level in math? _____

Other _____

The goal of this program is to provide enrichment in mathematics to local students that complements and sup-

plements classroom instruction. In addition to regularly attending the weekly Friday sessions at the Club, we will expect the student to work independently at least one hour a week at home, the library, or another location where computer internet access is available. Your encouragement and support will be vital to their success in the program.

We will ask you to attend a brief orientation program so that you will be familiar with the program and how the "Khan Academy" learning system works.

When would you be able to attend an orientation session?

- A weekday from 5:30-6:30 pm _____
- A weekday from 7-8 pm _____
- Saturday morning _____
- Some other time (please specify) _____

Please return this form by January, 10 to Scott Hughes at the Boys and Girls Club. If you prefer, you can email your responses to him at: scottbgcchaffee@gmail.com.

Registration will be limited to 15 students, the maximum capacity of the Tech Center at the Club.
